Sample Routine Test includes: pH, organic matter, available phosphorous (P)	
Test Number/ID:	and potassium (K). Nutrient analyses for P and K are run using Bray-1
☐ Exchangeable Ca/Mg ☐ Soluble Salts	extract.
☐ Other	Additional Tests (available for an additional fee) include:
	exchangeable Calcium (Ca)/Magnesium (Mg), soluble salts,
	physical analysis (% sand, silt, and clay), or others.
	Samples size required for analysis: 2 cups.

Instructions for Submitting Samples:

Customer Information - Please print your **name** and complete **address** in the space provided. Fill in the **county** from which the sample was taken. (This is **required** for us to be able to provide you with recommendations.)

Payment Information - Enter the **amount** paid and indicate the **method** of payment (cash, check number, credit card information) OR enter the laboratory account ID. **Make checks payable to: UW Soil Testing Lab**. If you would like to have your results emailed to you, please provide your email address in the space provided.

Required Sample Size - 2 cups.

Sample Description - Please **number** all samples consecutively. **Choose** the appropriate Turf Category from the listing that BEST describes the area in which the sample was taken (i.e. NM2 for a fairway). Provide a **description** of your sample or the area in which the sample was taken. (*This is so you are able to identify which sample corresponds to the area in which your sample was taken on the report we send to you. This is particularly important if several samples are submitted at the same time).*

Submitting Samples - Send your sample by U.S. mail, UPS, or other delivery system OR drop your sample off at the address listed below. Please be sure to include this sheet.
